Chapter 1: How You Approach Life and How You Appear To Others

Libra Rising:

You are a natural diplomat, reasonable, tolerant, fair, always willing to listen to varying viewpoints, and ready to see the other side of an issue. Even if you strongly disagree with someone, you will try to find points of similarity and agreement rather than emphasizing the differences. You often avoid taking an extreme or one-sided stance on anything. You have a strong desire for harmonious and pleasant relationships, and express a spirit of cooperation, compromise, friendship, and fairness. You very much want to be liked and because of your need for approval and acceptance, you are easily influenced by others' opinions, especially when young. You so much want to please that often you will suppress your own intense or unpleasant feelings in order not to offend others. Sometimes your politeness is interpreted as phoniness or wishy-washiness.

Your need to create harmony extends to your physical environment and personal appearance as well. You appreciate beauty and have a natural sense of balance, symmetry, and proportion. You do everything in good taste, with a sense of style and art. From your home furnishings to your choice of clothing, everything must be aesthetically appealing, not simply functional or utilitarian.

You also feel that relationships are an art, one that especially interests you and one that you are usually quite skilled at, for you possess tact and acute awareness of other people. Marriage is very significant to you and finding the right person to share your life with is extremely important. Being part of a close couple seems natural to you - you are not an independent loner. Having a partner increases your self-confidence. You do have a tendency, however, to become overly dependent on your partner and perhaps not to develop a clearly defined identity outside of the relationship. Finding the balance between being yourself and blending and uniting with another is a challenge for you.

Others see you as an agreeable, smooth, harmonious, and "nice" person. Though there may be much more to you, this is the sort of face you show to the world. You possess personal charm and an understated, noncombative manner. Your motto could be "you catch more flies with honey than with vinegar" for you usually take a friendly, cooperative approach rather than a strong, forceful, I'm-going-to-conquer-the-world attitude.

Chapter 2: The Inner You: Your Real Motivation

Sun in Cancer:

You have powerful emotional attachments to the past, your family, your childhood, those places you associate with safety and security and your beginnings. Maintaining a connection with your roots and heritage and keeping family bonds strong are very important to you. Loyal, devoted, and sentimental, you tend to cling to whatever is dear to you, be it person, familiar place, or cherished possession.

You are sympathetic, nurturing, supportive, and very sensitive to the emotional needs of other people. You like to be needed, to care for others, and you often worry about the people you love. You have a very strong need for a sense of belonging and acceptance, and you center much of your life around your home. You are more concerned about people and their feelings than with power, achievement, or position in society. Kindness, consideration, and tenderness impress you more than any sort of honor the world can bestow.

You are primarily emotional and your views are often dominated by your feelings and by your own personal, subjective experiences, rather than reason, logic, or abstract principles. It is difficult for you to judge situations in a fair, objective manner for your personal sympathies and loyalties usually enter in. You take things very personally, and sometimes build a wall around yourself to protect yourself from pain and rejection. You feel rather shy and vulnerable at heart. You also tend to be moody, experiencing frequent emotional ups and downs. You need to have a place and time in your life to withdraw, introspect, dream, and replenish yourself; otherwise you become cranky and unhappy with those around you.

You function in an instinctive, nonrational manner and like to immerse yourself in creative activities where you can express your feelings, imagination, and instincts. You often love to cook, since it can be both creative and a way to nurture and nourish others. You also have a great affinity for music, because it evokes and communicates feelings that may be difficult or impossible to put into words.

Your compassion, sensitivity, and imagination are your strong points. Your faults include an inability to release the past and go forward, clannishness and prejudice, and a tendency to be self-pitying when you meet hardships in life.

Sun in 10th house:

Your career, reputation, and public image are very important to you. You have a strong desire to be influential or make your mark on the world. The merely personal sphere does not satisfy you; your ambitions include making a major contribution and receiving broad recognition for your unique effort and gifts. You may undervalue the personal or inner side of life.

Sun Conjunct Moon:

The above description of you is so deeply ingrained that you have little objectivity and often little appreciation for other, different ways of approaching life. You tend to be one-sided. There is little ambiguity in your makeup and you generally know what you want and what will make you happy.

Chapter 3: Mental Interests and Abilities

Mercury in Cancer:

You are highly interested in inner, subjective, and personal issues, and your thinking is based more on feelings, intuition, personal experiences, and prejudices rather than reason or logic. Intellectual abilities and accomplishments without heart or soul mean little to you. You are empathic and would be an excellent counselor, for you are a sensitive listener and deeply interested in a person's feelings and inner life. In addition to psychology, you are drawn to education, art, poetry, music, or mythology. You are not especially confident about speaking in public, but will open up and share your thoughts in small, intimate groups. You enjoy keeping a diary or personal journal and reading the chronicles of others' lives and personal development.

Mercury in 9th house:

You have an unquenchable thirst for knowledge and wisdom and for an ever broadening understanding of life. You are the perpetual student and will be involved in higher education, philosophy, or religion. Law, broadcasting, publishing, or the field of communications are also areas that interest you. World travel and studying other cultures are also strong urges of yours.

Mercury Conjunct Jupiter:

You enjoy philosophical speculation and theorizing about abstract ideas and concepts. You are interested in the broad view, universal principles and systems, seeing connecting relationships and patterns, and seeing the whole picture rather than its component parts. You have a great respect and thirst for knowledge and education, and are the proverbial "perpetual student". You also have a talent for teaching and sharing your knowledge, and as a teacher you present yourself as a fellow participant in the ongoing quest for understanding rather than as an authority.

You may become involved in television, publishing, or other fields that involve sharing ideas with large groups of people. You excel in areas that require long-range planning and foresight, and can therefore be very successful in business, but you are rather sloppy and haphazard when it comes to implementing your ideas in a concrete way. You should leave it to someone else to take care of the details. Travel or long-distance contacts and communications will play a large role in your life and work.

Mercury Square Neptune:

Your mind is highly imaginative and creative and you possess dramatic, artistic, or musical abilities. As a child, you enjoyed daydreaming, fantasizing, pretending, and probably lived in "your own little world" a good deal. You perceive things which are not obvious to other people and you have an uncanny ability to "read" people and situations without being told anything about them. However, you must learn to discriminate between a true psychic perception and your imagination. Learning to discipline and focus your mind is necessary if you wish to use all of your creative potential. Otherwise, you could be simply a dreamer.

Communication with others is difficult for you because you often find words frustrating and inadequate to express your experiences and perceptions. Also, you may purposefully mystify or deceive others.

Chapter 4: Emotions: Moods, Feelings, Romance

Moon in Cancer:

You respond very much to the emotional tone and atmosphere around you, and can be dominated by your fluctuating and unpredictable moods. You often appear irrational to others because you cannot always explain the reason or source of your feelings. Anyone who lives with you must accept your ups and downs and appreciate your need for times of withdrawal.

You are also very sympathetic and understand the unspoken feelings and needs of others. You take slights and rebuffs very personally and though you may forgive a transgression by a friend or loved one, you never forget it.

Moon in 10th house:

You work well with the public and have an instinct for what the public wants and will respond to. Having a "nest" is not especially important to you, and you may invest more of your emotional energy into your career or public life than in your private life. Providing for and caring for others in a professional capacity is very likely.

Venus in Gemini:

In love, you are more interested in a person's sense of humor and intelligence than in their physique. You like a partner who is mentally alive and who keeps you guessing a little bit, and you become restless and bored with someone who never asks questions, never changes or surprises you. Talking, sharing ideas, going places together, and learning new things together is very important to your happiness. You need lots of social stimulation, are something of a flirt, and like to have many friends of both sexes. A possessive, jealous partner is very stifling for you.

Venus in 9th house:

You are attracted to foreigners, exotic places, traveling, and to people who can expand your horizons, teach you something, or show you places and worlds you have never experienced before. Sharing a philosophy or ideal with your love partner is important to you.

Also, you feel a love and kinship for people everywhere, not only with your own family, nationality, or group. Finding similarities and making links between people from differing backgrounds or with different perspectives is a gift of yours.

Venus Sextile Mars:

You are warmly romantic and openly express your appreciation and love of the opposite sex, though rarely in a crude or insensitive manner. You enjoy playing match-maker and bringing people together romantically. Fulfillment and harmony in love is likely for you because you know what you want and need in a romantic sense and express those desires honestly.

Chapter 5: Drive and Ambition: How You Achieve Your Goals

Mars in Leo:

You are proud and ambitious, and you strive to excel, to stand out and be recognized for who and what you are. You have a very strong ego drive and like to be Number One. You find it difficult to take orders from others or to stay in the background, and you hate being wrong; you always insist that you are right!

You are forceful, strong, energetic, determined, and highly competitive. You play hard, you play to win, and you do not give up easily. In fact, you see life as a competitive sport or performance. You love admiration and applause, and you have a strong sense of personal honor and integrity. You tend to be very self-confident, even arrogant. Because of your belief in yourself, you are able to accomplish much, but if your confidence is ever undermined, you become self-conscious, defensive, and rather belligerent.

Mars in 11th house:

You are a team player and work well in collaboration with others who share your goals, ideals, and intentions. You can coordinate group efforts and inspire people to work toward a shared goal.

Team sports are also a lot of fun for you, and you could be a leader, coach, or director of any group endeavor.

Chapter 6: Other Influences

Jupiter in Cancer:

You make others feel accepted and comfortable. You have a knack for breaking down feelings of alienation and you make others feel included and a part of group activities. You have a loving, protective side that wants to take care of everyone. Creating a supportive atmosphere that is nourishing both to yourself and to others is one of your strengths.

Also, your home and heritage are important to you, and you maintain close connections to your past.

Jupiter in 10th house:

Your career or contribution to the world at large is likely to touch many people's lives in a very positive, helpful way. You aim high and have an innate confidence and trust both in your own abilities and in life in general, which enables you to go far. You want to do something BIG with your life, and you attract the support you need to do so, for your aims are not solely for your own personal benefit. You want to give something back to the world, or to improve others' lives as well as your own.

Saturn in Gemini:

You doubt your own intelligence and mental capacities, and you may work very hard at studies in order to compensate for this. You are often overly serious and disinterested in light or superficial conversation. Spontaneous communication, social give-and-take, and making small talk are likely to be difficult for you.

Saturn in 9th house:

Your attitude toward religion, philosophy, and politics is very conservative and possibly narrow or rigid. On the one hand, you may believe in nothing that is speculative or intangible, requiring proof for any idea presented to you. Each idea is thoroughly and systematically examined. On the other hand, you may tenaciously cling to your grand philosophical or metaphysical beliefs and opinions, refusing to modify them or to be open and receptive to others' insights and perspectives.

Your overall outlook on life is serious, and you may feel that life or God will punish you if you do not watch your step!

Saturn Conjunct Uranus:

You are serious and sincere about your interests, you do not accept superficial answers, and you are not easily placated. You want to bring your inspirations into concrete reality, and you don't mind upsetting some apple carts if necessary. You become impatient with others for being hesitant to implement new ideas and take action, and your occasional outbreaks of brusque, insensitive behavior often do more harm than good.

Saturn Sextile Pluto:

You are capable of overcoming tremendous odds, and of enormous self-discipline and focus. When you set your sights on achieving something or are presented with a thorny challenge, it is your capacity for eliminating the superfluous, getting along with very little, and riding through tough times that enables you to triumph eventually.

Uranus in Gemini:

You are part of a 7 year group of people who are progressive and creative thinkers. Academic achievement is high and academic standards are higher with your age group than with others. You are a curious and inquisitive bunch, and many discoveries and clever insights are brought forth from your age group. The love of learning never dies with your age group, and your curiosity and inquisitiveness does not wane in later life, as is common with others.

Uranus in 9th house:

You are unconventional, even iconoclastic, in your attitude toward religion, philosophy, and politics. You tend to see traditional religion as restrictive, meaningless ritual with little to offer you, and you're eager to experiment with other, alternative pathways. You have lots of creative, innovative ideas and you often feel that others are unwilling to take risks and venture out of their deeply ingrained perspectives and views.

Uranus Sextile Pluto:

You belong to a group of people who will be the positive reformers and innovators in society. Peaceful methods and new techniques which do not create too much disruption, but which bring about fundamental and profound changes in society, will be your contribution.

Neptune in Virgo:

You are part of a 14 year group of people who are conservative and moderate in spiritual aspirations. Your age group tends to avoid speculation on metaphysical matters, and interest in psychic phenomena is considered very strange and weird by your age group. There is also a strong sense of right and wrong, and religious practices tend to emphasize ethics and moral judgment. The conservative, straight-laced atmosphere generated by your age group is frustrating to more imaginative types, who consequently rebelled against it.

Neptune in 12th house:

Compassionate and extremely sensitive to the emotional tones in the atmosphere surrounding you, you are naturally "psychic" or able to sense and understand much about a person without talking to them or knowing them consciously at all. You are deeply interested in the hidden realms of life and the afterlife. Your powerful sensitivity may also remain latent or repressed through much of your life and then be fully awakened in

adulthood.

Pluto in Leo:

You are part of a 20 year period that is often referred to as the "ME" generation, a generation that has a very proud and self-reliant attitude. You are a generation that is very concerned with self-development and personal integrity. Women's rights and minority rights are issues that your generation has fostered and they reflect your concern with individual respect, integrity, and honor. Your age group has a deeply felt sense that each person has an equal right and opportunity to fully develop his or her inner potential.

However, your group also finds it difficult to be part of a team and a strong egotism makes group efforts difficult; you tend to see the individual as more important than the group. You also defy authority and often feel that no one has the right to tell you what to do. The strong movement to refuse drafting into the military is one example of your age group's strong sense of individual rights and freedom.

Your age group has popularized the idea of self-development, and has contributed a great deal to the development of individual potential as well as human rights. However, there is also a tendency to be rather self-centered; others may wonder how you can spend so much time developing yourselves and have so little time to contribute to your families!

The interest in personal development also sometimes manifests as a fascination with particular individuals and a great deal of hero worship. Every generation, of course, has lots of idols, but your generation is particularly prone to needing a specific individual to represent and embody an idea or feeling, and to serve as a focal point of interest. Perhaps the most extreme example of this is the concept of the guru that was popularized by your age group.

Pluto in 11th house:

You may have a deep aversion to groups, associations, clubs, or organizations of any kind. Any such group you become involved in is likely to be either for intense personal growth, change, and healing, or centered around social change and revising society in some manner.
