SECTION I. The Structure and Intent of Your Life.

There are four items of general interest that we want to take up here in Section I: A) Hemisphere and Quadrant Emphasis, B) Elements and Modes, C) The Ascendant and Midheaven, and D) The Conjunctions. These four categories give us an intelligent overview of how you structure personal experience and what you aim for in life. This general patterning gives us a context to understand the specific personal meaning of the material in Sections 2 through 11.

A. Hemisphere and Quadrant Emphasis

The different areas of life are laid out in the horoscope by spatial territories called houses. These areas of life show interests and general involvements for each person. These areas can be grouped together for a vast overview of most basic inclinations of the person. The most useful general groupings of houses is into hemispheres and quadrants. Emphasis in a hemisphere or quadrant shows a particularly strong focus toward life from that perspective.

1. Hemisphere

The horoscope can be split into 2 equal parts, either horizontally (giving us the upper and lower hemispheres) or vertically (giving us the right and left hemispheres). The Upper Hemisphere shows the outer, more extroverted side of the personality, the Lower Hemisphere shows the more introverted and hidden side of the personality. In the Left Hemisphere planets are rising and this shows action. In the Right Hemisphere planets are setting and this shows reaction.

Most Planets Above the Horizon

You have the majority of your planets above the horizon showing that you have a need for contact with the outer world in order to feel fulfilled each day. You enjoy projects, achieving and a sense of accomplishment. Success for its own sake is more important than what security it might present to you.

Most Planets Rising

You have the majority of your planets on the eastern half (or left-hand side) of your chart showing that you take great pains to be sure that you are free to act as you wish in life. Freedom of movement and expression are important to you. You have a strong feeling that you make your own destiny.

2. Quadrant

The two ways of splitting the horoscope into hemispheres can be applied simultaneously giving us four quadrants. The FIRST is called the quadrant of personality. The SECOND is called the quadrant of the environment. The THIRD is called the quadrant of relationship. The FOURTH is called the quadrant of service.

Most Planets in the Fourth Quadrant

You have the majority of planets in the fourth quadrant showing that you have a fascination with the big picture. You are interested in accomplishing something in the larger world. You wish to serve the community somehow. Career and projects that have an effect on more than your own life become the focus of your activity. You often attract recognition. This may or may not be important to you.

B. Elements and Modes

The Elements and Modes show what we aim for in life. They show our broadest focus and in the most general sense, how we go about achieving our goals.

1. Elements

The four elements (fire, earth, air and water) are the most comprehensive inventory of the personality that we have. Everything in the universe including the human personality can be examined in terms of the four elements. FIRE is your basic enthusiastic urge, EARTH shows your concern for the material world, AIR is the element of abstract thought, WATER is your empathy impulse. Fire and earth are primitive and focus on the self. Air and water are derivative and focused on others. Fire and air are naturally extrovert, optimistic, active, and freedom oriented. Earth and water are basically introvert, pessimistic, passive, and security oriented.

Fire

You have 20% of your chart in the fire element showing that you have an awareness of how much energy you lack that others seem to have. Still, you have plenty of enthusiasm and stamina prevalent. You go toward each project with a certain amount of pre-selectivity. You are always prompted to do more, primarily because you don't trust that you are doing enough. In the long run, this single characteristic guaranties you accomplish much in life.

Earth

Neptune is your only planet in an earth sign. Just 10% of your chart is in the earth element, but it still holds the key to your spiritual aspirations and ideals. Therefore although you struggle very hard to be practical and thorough in life this is a worthwhile project since it is a way to grow. Other people are more concerned with results than you are. You experience frustrations because the material circumstances of your world don't support your picture of what you want. This changes when you focus on the fundamental building blocks of your future. To make progress on your path to success, you are forced to concentrate exclusively on the results of your efforts.

Air

You have 30% of your chart in the air element. You vacillate between being very interested in people and ideas and needing time by yourself. Periodic isolation and an involvement with routine, commonplace activities that do not require innovation are relaxing for you. You need both spontaneous activities as well as predictable patterns in your life.

Water

You have an abundance of water in your chart. You are very emotional and quite empathetic. You feel others' pain so deeply, you can be moved off the path from your own goals unless you develop a strong sense of self-definition so as to separate out your own needs from those of others. You need something to do in life that gives full ventilation to your feelings. Your sentimental and emotionally potent approach to life polarizes people who will either appreciate you for this trait or be repulsed because of it. You tend to separate people, in your mind, into those that belong and those that don't. You find any habit, good or bad, very difficult to change.

2. Modes

The three modes are CARDINAL, FIXED, and MUTABLE. The modes of expression show how you act out your urges in the world. They represent your most basic responding mechanism toward all of life experience. The cardinal planets show direct expression in physical action, leadership ability and strength. The fixed mode planets in your chart show reaction, consistency, persistency, endurance and stubbornness. The mutable planets in your chart show synthesis, blending, malleableness, thought, forethought, debate and wisdom. The following statements show the way the three modes manifest in your life.

Cardinal

You have an abundance of cardinal planets in your chart. You are very active. You are able to choose a direction and go your own way in life. You are stronger than most of the people you know and this gives you a natural desire for leadership. Be aware, you act impulsively and this can be either a strength or a weakness. Try to control your assertions so that you stay in harmony with your environment and you won't suffer from self-inflicted accidents or difficulties.

Fixed

You have 20% of your planets in the fixed mode. You don't have as much stick-to-itiveness as most people. Still, if circumstances require it, you can put forth great amounts of energy in a controlled way, treading water until new opportunities to act present themselves.

Mutable

You have an abundance of mutability in your chart. You are a thinker and attempt to accommodate a number of circumstances and people in your environment. You may have difficulty choosing a direction and staying with it. Truth has a way of becoming a highly personal subjective factor; consequently, others think of you as not being able to communicate simple truths in a factual way. You are nervous and may need more B-Vitamins in your diet, rest, and meditation in order to be balanced.

C. The Ascendant and Midheaven (Signs and Aspects)

1. The Ascendant

The ascendant is symbolic of our relationship to our immediate environment. This is the point rising in the east when we are born. One manifestation of our immediate environment is our physical body. The physical environment includes our body, our surroundings and our emotional and mental states. Thus, the ascendant tells us how our inner core expresses itself, and how we take in information from others and the universe generally. The sign rising in your horoscope tells us the type of energy you are processing, the type of physical body that you have for doing the processing and the natural inclinations you have in the personal arena in life. The planets in aspect to your ascendant tell us the kind of energy and stamina you have as natural allies in life. The ascendant is opposite the seventh house cusp (the place where we meet others and the world). This axis (ascendant-descendant) is how we clarify ourselves through relationships. Planets in aspect to this axis indicate the types of people and the types of relationships we seek as well as how and why we seek them.

LIBRA RISING

You assert a tremendous amount of energy (although apparently effortlessly) trying to be what you feel others expect you to be. This endows your personality with a certain graciousness that others can easily appreciate. When a controversy emerges around you, you will exert yourself to achieve harmony in the environment as well as amongst people. You are the

diplomat. On the other hand, you may get a reputation for being "two faced" or superficial unless you make the effort to get your own position clear. You can't be a real peacemaker without some "backbone". Make sure you get time by yourself every so often so you can judge what needs to happen in your own life free from others' influence. Don't try to please everyone and your life is easier and more honest. You are a people person and have a knack for being the gracious host and the grateful guest. Your physical vitality ebbs and flows. Spend time learning your own rhythms so that your efforts flow in their most productive manner.

Mercury Square the Ascendant

You like people and ideas but your manner of expression can put others off or create misunderstanding. Tolerance of other people's point of view is the beginning of having others understand you better. You express your opinions with so much force that others take issue with your ideas. You learn from argument and disagreement. But remember, a good idea that is expressed in a confrontational manner may not get a fair hearing. Understatement is usually more helpful than overstatement. Diplomacy begins by listening to others.

Mars Semi-Square the Ascendant

You are often frustrated. Your energy and vitality are there but somehow your manner of self-assertion doesn't bring you the results that you think it will. Reorganizing your basic approach to life requires you to examine your motives for action very closely. Getting your mind to function right is the first step in having your actions be more effective. Strive to make your inner conflicts explicit so that you can understand and come to terms with them. Find safe, physical releases for your pent-up energy.

Jupiter Square the Ascendant

Misplaced idealism and inflated expectations of life and of others can lead you in circles and away from your goals. You are lucky but need a consistent and realistic direction to have this count for something. Overindulgence can get you into trouble. Too much of anything, even the "good life", can get in the way of self-knowledge. Learn to be satisfied with what you have and you are successful. Learn to moderate your social life and you will find relationships more meaningful.

Saturn Trine the Ascendant

You like to work hard and are self-disciplined, knowing how to make progress toward any chosen goal. Your vision is long range and very practical. You know how to get results and favor what works. Because you feel responsible for what you do, often you are found working by yourself. You need to create something of value in order to feel worthwhile in life. Others rely on you even though you are a bit serious, difficult to penetrate, and have a propensity to work by yourself.

Uranus Trine the Ascendant

Your creative spirit is very strong and in tune with your environment. You are able to respond with lightening speed to changes in circumstances. This skill is a critical adjunct to your inventiveness. At the same time, your ability to go your own way and call your own moves allows you to swim against the tide. You have a striking personality and inspire others to action through the strength of your vision. The originality of your insights gives you a unique gift for helping people and the breadth of your vision and your sense of timing is great for making money in the business world.

Neptune Separating Conjunction to the Ascendant and unafflicted

You are an idealist and will work hard for a cause. You are so sensitive and your attention is absorbed by so many intangibles that you need to have time by yourself each day in order to restructure your approach to life and check your own signals. Your emotions set a very high standard for you to live up to and you will not be happy in a close personal relationship with someone unless they share your values. It is imperative that you communicate them to anyone close to you (for them more than for you). Because others can project qualities onto you that you don't have, you have a responsibility to keep your signals straight with them. Emotions and ideals are closely aligned with each other and form the backbone of every meaningful event in your life. You carry the aura of beauty with you wherever you go. You are genuinely concerned with others and a kindness pervades all your interactions.

Pluto Sextile the Ascendant

Your penetrating insights into life and your ability to focus on critical factors makes you a good problem solver. You are able to see through major issues faster and with a good deal more accuracy than others. This skill colors everything you do. When you concentrate on a person they have your complete attention. As a consequence of this trait your friends are self selecting from the people who can relate to your "all or nothing" mental attribute.

2. The Midheaven

The Midheaven is the high point in your chart. It indicates what you aspire for, what you see as your duty, and what authority and limits are about. Because of this basic meaning the Midheaven indicates how you live out your social station and what you do for your career. The point opposite the Midheaven is the fourth house cusp, referred to as the nadir, which is the indication of our roots, our heritage. This axis (Midheaven-Nadir) indicates the way we grow in life. The sign on the Midheaven shows our basic energy and approach toward dealing with the world. Planets in aspect to the Midheaven show qualities of our inner being that we wish to contribute to the world and that we wish to be fulfilled through our interaction with the outer world.

CANCER MIDHEAVEN

You are personable in your way of administering authority. You enjoy being in touch with all the details of the things you are responsible for in life. Consequently, you may not want to expand to your full potential but instead may stay in more narrow guidelines.

Mercury Separating Conjunction to Midheaven and afflicted.

You have great ideas and your language skills are responsible for your rise in life. You have difficulties in getting your curiosity fulfilled and still staying in the present moment. Try to keep yourself from disconnecting from the present.

Mars Semi-Square Midheaven

You have a driving inner need to be in control. This means that you wish to be in a job situation that gives you a maximum amount of freedom. You fight with bosses or anyone who tries to limit your self expression.

Jupiter Applying Conjunction to Midheaven and unafflicted.

You have a lighthearted bouncy quality that gives levity to your administrative skills. You are helped by people in positions of authority who recognize your potential. Others have confidence in you. Your self-confidence is contagious and helps others feel better about themselves.

Uranus Semi-Sextile the Midheaven

The urge for freedom colors your picture of a good career and a meaningful life. You realize easily in life that freedom conflicts with your desire for security and accomplishment. Stay active with the idea that you can have both. Responsibilities must be handled early in life without sacrificing self expression or squelching your creativity. Be patient. Your progress in life may zig zag a lot but you can achieve much in the long run if you can accept that your methods and path to your goals are highly unusual.

Neptune Square Midheaven

You have powerful ideals that are out of step with the culture. You need to bring your beliefs in tune with the practical (or inevitable) without sacrificing the finer, more sensitive qualities of your own nature. You get psychic messages but aren't always sure what to do with them. Incorporate your ideals and sensitivities into your conscious activities and your life smoothes out.

Pluto Semi-Sextile the Midheaven

You are powerful, but your desire to express your authority is not always evenly matched to the circumstances of your real life. You may compensate in a long extended fantasy life. This can be enriching but, it is necessary for you to take real steps in the external world that lead toward a position of genuine authority and responsibility. Long periods of dormancy give way to rapid change, then back to a period of relative stagnation. Slow germination of ideas and energy can take place in your inner life (at an unconscious level) that abruptly erupts forward into life, carrying you forward toward your goal.

D. The Conjunctions.

A Conjunction occurs when two planets are in the same immediate area of the Zodiac. The conjunctions in your chart show central linkings of basic energies in your life. When one area (represented by a planet) expresses itself, it brings along the other area (represented by the other planet). When you are studying the rest of this printout of your life, keep in mind that linking of these energies is a central theme in your life and these areas should be studied together.

Sun Conjunct Moon

Think of Sections II. THE SUN - Your ego structure, and III. THE MOON -Your personal life, as a single unit. These two very primary ingredients of your being express themselves together. Whatever affects one of them affects both of them. This Conjunction represents a central theme in your life.

Mercury Conjunct Jupiter

Think of Sections IV. MERCURY - Your mental life, and VII. JUPITER -Your values, as a single unit. This Conjunction is a central indicator of the way you interact with people and your environment

Saturn Conjunct Uranus

Think of Sections VIII. SATURN - Your obligations, and IX. URANUS -Your search for freedom, as a single unit. This Conjunction represents an inner emotional tension that either strengthens or weakens your life depending on how it is integrated into the rest of your personality. In either case, this principle is a central feature of your life.

SECTION II. The SUN - Your Ego Structure

The Sun is the center of the solar system. All life revolves around it within this sphere. In the same way, the ego is the center of personal identity and gives integration and continuity to individual experience. In this sense, it might be said that the Sun shows character. This is the fixed pillar at the center of the person around which all else circulates or revolves.

The sign placement of the Sun shows the center of the individual's basic character. The sign of the Sun is the most primary indicator of the forms of experience you are attracted to. Further, this most important placement shows how and why you are attracted to these experiences.

The house placement of the Sun sign shows the primary area of expression for the individual in life. There is a psychological, emotional, and physical significance to the house placement of the Sun. Aspects to the Sun show ways that the core of the personality are linked to other component elements in the individual's life. Aspects to the Sun have a deep and overriding significance in the life of the individual and are generally more important, more prominent than other aspects in the chart.

SUN IN CANCER

Your emotional roots are important to you and you have a nostalgic streak in you that is very powerful. Your family connections and sentimental attachments from the past form the basis for your decisions. How you feel about people or situations is the primary ingredient in choosing a direction. Your attachment to feelings from the past, both good and bad, are like mud. This gives continuity and meaning to experience but it also keeps you stuck like glue to your habits even when they don't serve you any more. Work on being more optimistic without giving up consistency, and more innovative without giving up well-worn habits. Learn to accept people at face value who are different and your life will be more fun and more stable.

Sun in 10th house

You are achievement oriented. You have a natural expectation that positions of power, authority and responsibility should come to you. You receive help in your climb in life from people further up the hill. You will be well known in your immediate circle and that may transport out to a larger world picture.

Sun in 10th house Afflicted

Your reach is usually beyond your grasp. You achieve and then tumble. Avoid shortcuts and "backroom deals" that won't work when they become public. What you do tends to become visible, so you need to stay within public taste.

SUN CONJUNCT MOON

You were born at the time of the New Moon. You have a powerful drive within you to accomplish. Life works best when you take time to establish priorities. Learn to finish old projects before starting new ones. Be aware of when it is time to let go of old projects and go on to new ones. Draw a balance between jumping in too quickly and hanging on too long. You have the ability to balance your ego drives to accomplish and attain with your emotional needs. Translating this ability into actuality may be a slow process lasting many years but if you are patient it most certainly does come. Once achieved, you are able to be at home in any situation because you are at home with yourself.

SUN SEMI-SEXTILE VENUS

You have a charm, a beauty and an inclination to do good. You need to make sure that you don't become lazy and give up striving for the good after suffering some disappointments in life. The desire to nurture and your fascination with your own receptive qualities can put you in touch with many different types of people in life. Learn discrimination and your life is much more pleasant.

SUN IS IN HARD ASPECT TO YOUR SATURN

Your restrictions are largely self-created. You find your fears and your ego drives getting in each other's way. The result can be that you are overly cautious. Self-control can be so overdone that you become difficult to live with or work with. A defeatist attitude can grow out of being too conservative. Strive to be responsible and still see the world in a positive light. As you become more trusting you overcome your propensity to back ill-conceived plans that stem from pessimism and desperation.

SUN SEMI-SQUARE YOUR SATURN

Frustrations and slowdowns in your personal projects have a way of getting you to look for new solutions. Hard work is necessary to get results and you always seem to be struggling against your past. Success comes through patience and discipline.

SUN IS IN HARD ASPECT TO YOUR URANUS

You have a strong will, an abrupt manner, and a highly original form of self-expression. You need to be careful that your basically iconoclastic nature doesn't end up separating you artificially from others. Your need for freedom, independence, and uniqueness plays havoc with your life in youth but becomes more a force for progressive change as you get older. You love the dramatic and are a true romantic. You have a major lesson in life: to gain freedom through responsibility rather than freedom from responsibility. Once learned, relationships and projects become much more stable.

SUN SEMI-SQUARE YOUR URANUS

Your search for the best course of action or path of development, invokes a nervousness and erratic pattern of behavior that is difficult for others to follow. You are directed to follow your own impulsive behavior and insights. Your emotional life is in flux every so often. As you learn to listen to others without taking offense, you unfold your uniqueness without running into resistance from the world.

SECTION III. The MOON - Your Personal Life.

The Moon inscribes a circle around the earth. It moves more swiftly than other astronomical bodies and thus represents day to day and moment to moment movements, adjustments and preoccupations. The Moon is the symbol of the personal life which is molded and shaped by our environment, by events, and by social and familial expectations. Further, the Moon shows our responses to life which are based on our past habits, experiences, our heritage and our individual and collective cravings.

The sign placement of the Moon shows how you project yourself to the general public, how the instinctive and imaginative component of your mind operates, how you express your feelings and your most general experiences of your family and mother.

The house placement of the Moon shows how and where you make day to day adjustments. Further, it shows the things you are most interested in dealing with in order to gain emotional equilibrium.

The aspects of the Moon show the general characteristics of the personality that are emphasized. Planets in aspect to the Moon are symbolic of qualities in the personality that are used instinctively, habitually and with a high degree of versatility.

You correct your own actions and go on. Your life may have several low points while you are reorganizing after a setback. You will be hard-pressed to sort out your true responsibilities

and may find the day to day planning of your time to be quite challenging.

MOON SEMI-SQUARE YOUR SATURN

MOON IS IN SOFT ASPECT TO YOUR NEPTUNE

You have a deep and abiding connection with music and art. When you are upset or feeling unbalanced; you can gain a sense of peace through music, meditation, and isolation. You are a sensitive and creative soul. As long as you are not too passive, your life has the good fortune to unfold along the path of least resistance. (Becoming too passive can mean stagnation). You are idealistic and believe the best about people. This is good and helps people, but remember to concentrate on people as they are, and not just what they might become. A lofty potential is always there but might not ever manifest.

MOON SEXTILE YOUR NEPTUNE

A certain fluency with people and events gives you an ease in self expression. Grace and charm are part of your personality and you inspire others in barely perceivable and undefined ways. You are highly intuitive and deeply affected by other peoples' moods, feelings and responses.

SECTION IV. MERCURY - Your Mental Life.

Mercury is the closest planet to the Sun. From the viewpoint of the earth it seems to dart back and forth across the face of the Sun, having three retrograde cycles a year. Mercury is the planet of your mental life. It shows how you receive, process and disseminate information. The sign placement of Mercury shows your basic attitude and mental habits. The aspects of Mercury show your scope of vision and your methods for accomplishing tasks.

MERCURY IN CANCER

Your mind is colorful and very emotional. You have a retentive memory and a great imagination. You have the ability to express yourself with a good amount of emotional force. When you are hurt, worried, scared or angry, you may not reveal to others what is really on your mind. The emotional content of your mind may prejudge your perception of what other people are doing or why they are doing it. Aim to be more balanced. You adjust under unpleasant circumstances easily if nothing that you rely on for emotional security is threatened. When home, family or a love object are uncertain, you can be very disturbed. You need to develop new solutions rather than using a patchwork of old methods.

Mercury in 9th house

You have an interest in travel that comes from a desire to expand your understanding of life. Adventure and change are always ingredients of your life. You are forever searching out new avenues of understanding, as you have a persistent drive to find the truth. Your temper can be problematic, getting you into squabbles and disagreements where there doesn't have to be any. You have difficulty being either a diplomat or a leader so you are best to define your own work and territory and stick to it. Learn to take a break when things don't go your way, rather than becoming angry and frustrated.

MERCURY SEMI-SQUARE YOUR MARS

Your temper flares quickly as your mind becomes easily nervous and overloaded with data. You experience this as irritation until you develop the ability to organize your thought process and harness your enthusiasm and energy to specific projects.

MERCURY CONJUNCT JUPITER

You have a fun-loving and optimistic outlook on life. You see the broader implications to what goes on around you and because of this you have a deep understanding of the troubles of the moment as being just that! Of the moment. Also, because of this long view of life, you don't always grasp the details of circumstances. You have a moral perspective and are concerned more with how things ought to be more than with how they are.

MERCURY IS IN HARD ASPECT TO YOUR NEPTUNE

You see more than you can do. It's as if you are being led through life responding to a voice that no one else around you can hear. People may like you a lot and yet think you are quite naive. You believe in things that others think of as make believe. This is part of your charm, for part of you has always remained a child. You need to make sure that you know how to communicate to others based on their perceptions and beliefs, otherwise you have great difficulty belonging to a larger world than the one of your own creation.

MERCURY SQUARE YOUR NEPTUNE

Your imagination is in service to your feelings of limitation and you find yourself as an escapist. You are very sensitive to your environment and little irritations get blown out of proportion in your mind, just as your mind can belittle a really important issue. This same problem can cause emotional difficulties as there is confusion with others. Learn to test your conclusions in the world that others live in and you safeguard yourself from making some unfortunate errors. You need a creative outlet for your mind; otherwise, fantasy takes the place of reason at really inconvenient times.

You have a refined gentleness about you but since your interests and focus is mental, others will see you as fickle. You can fall in and out of love quickly with either a person or an ideal. There is a youthful quality to you and you will seek inner peace through changing relationships, locations and travel. You love the exchange of ideas and need to make sure that you give yourself the background you really require in life. Weak foundations can give you a disposition that merely dances across the surface of life.

SECTION XII. SUMMATION.

A. YOUR UNIQUENESS

Part of your style of being a person is tied to your personal method of adapting to and interacting with other people. This aspect of your personality shows itself through every aspect of how you deal with the environment. This method of your being encourages as well as reveals your uniqueness.

YOUR MAJOR PLANETARY ASPECT IS A SEMI-SEXTILE.

You are very nurturing, with a knack for seeing the shortest route between two points. You are always having to balance your desire to grow and expand against your fear of anything that deviates from the norm. You like living out any new project in miniature and sometimes do not expand beyond this realm of the diminutive. You like dealing with people over everyday commonly shared experiences. Your keyword is safety.

YOU HAVE NO PLANETARY SESQUIQUADRATES.

You know how to work hard for what comes to you. You have a relaxed style for bringing about change in life. You get to your goals in life through careful planning and consistent application of energy.

YOU HAVE NO PLANETARY QUINCUNXES.

You have a serious and accurate manner for approaching changes in life. You see the possible and basically push to make more of what has happened in the past happen again. You have a natural talent for building on past experience.

YOU HAVE NO PLANETARY OPPOSITIONS.

You are great at being able to manifest the direction that you choose for yourself in life. This doesn't mean that decisions come easy for you or that you are always successful in achieving your goals, just that you are able to get your life functioning in the way that you would like. You are fast to learn that power and growth come to you by accepting responsibility for yourself and your life.

B. YOUR EASIEST AREAS.

The following material is an index of things that you have developed as inner resources. You may take them for granted, but in times of reevaluation and rest this part of your personality can provide you comfort and strength.

Moon in Cancer.

Your instincts and personal feelings are so deep and your ability to bond with others so direct and honest that you easily get along with anyone you have established a positive past history with.

Jupiter in Cancer.

You know how to feel at home under many varied circumstances. You have the ability to grow emotionally through almost every experience. Your instincts are right on target, as to how people are connected with each other and circumstances will work out.

Neptune in the Twelfth House.

You have the ability to retreat from everyday life and live in a more ideal mindset. This helps refine your spirit and helps manifest a higher value for the world.

C. YOUR MOST PERSISTENT DIFFICULTIES.

This material describes the "cutting edge" of your work on yourself. The thoughts rendered here are meant as further guidelines for growth. You should take difficulties and challenges in the right spirit. They are always positive indicators as to how you can experience the joy of becoming a better person and more like your REAL SELF.

Afflicted Sun

The way that you naturally seek self-expression and ego satisfaction cuts against the grain of personal integration. Simply put, you get in your own way. Locate the source of your self-imposed conflict and work toward forms of expression that bring the conflicting elements of your personality together on friendly terms.

Afflicted Mercury

You suffer because you draw the wrong conclusions from your perceptions. There are several ways of breaking out of a negative picture. You can ask other people's advice as to your present course of action in life, you can strive to be more empirical in your observations, and you can look for a consistent pattern in your past actions. Through expanding your perceptions, you can break out of a self-limiting mental bubble.

Moon in the Tenth House

You are easy to see but difficult to be close to. You mingle well with the public but have difficulty letting others know your real inner nature. Your personal life improves as you get over a deeply rooted fear of others.

Mercury in the Ninth House

Bend your perceptions toward the big picture without leaving the day-to-day details undone. You can be visionary if you avoid the grandiose.

Jupiter in the Tenth House

You have difficulty separating the essence of your values from how they appears to others. What you really stand for is more important than whether or not it is accepted by others. When you learn to be completely honest with yourself and others, you have a great skill for facilitating the completion of any project or group work you become involved with.

Neptune in Virgo

When the manifestation of your ideals is blocked, you interpret the situation as a problem of either inadequacy of technique or as lack of pertinent details. The truth of the matter is that you need to expand your faith in the power of your ideals and values. Don't fear change and correction and your aim in life will naturally be raised.

D. THE GROWTH ASPECTS

The Growth aspects operate differently than other aspects in your chart. While it is possible to use them descriptively, as showing finer shades of meaning within the chart, we wish to use them in a different manner for our purposes. The growth aspects are tools of self development. If you apply attention to the various qualities in your nature linked through the growth aspects, you will see positive change over time. These qualities generally do not show quick effortless solutions, but instead show a path of change requiring exertion and emotional honesty. Under these circumstances, the way these aspects of your nature change through time are truly amazing. The qualities mentioned here can be the very mechanisms to release the highest, finest side of your nature.

Sun Semi-Sextile Venus

The quest for beauty can lead you away from a path of personal development. This is because the object of your search in life seems to you to be substantially different from what you find as your own inner resource. Through self observation you come to realize that it is the beauty in you that perceives the beauty in the world. True progress for you can be won through achieving a balance between your own inner drives and what you see in other people that you judge as significantly different from what you find in yourself.

Sun in Growth Aspect to Mars

You have a rashness and anger to your personality that never quite ex-presses itself correctly. Too much ego involvement with your assertive instincts or lack of ownership of your directness can impede positive self-expression. As you get older you learn to channel your feelings more appropriately.

Sun Semi-Sextile Mars

There is an emotional and energetic side of your personality that goes through a long process of overcoming shyness. As you become more comfortable with your own aggression, you find ways of expressing it so that the results are neither covert nor dishonest. Strength is found by learning to depersonalize your feelings.

Mercury in Growth Aspect to Uranus

You come up with ideas that sound great but are not possible to materialize. Remember, genius may be partly inspiration but not every idea is worth the effort to make manifest. Your inner life can generate thousands of good ideas that you can't do anything with. Be discriminating and your efforts are less likely to be wasted.

Mercury Semi-Sextile Uranus

Pay attention to the unique thoughts that occur to you. Occasionally they are prompting you toward innovation that will change your life. Approach change with courage and patience. Many ideas that occur to you will require tremendous investment of time in order to alter your direction significantly.

Jupiter in Growth Aspect to Saturn

Learning what is possible is an important aspect of personal development. When your timing is off it is usually because your judgment of the situation is incorrect. You have difficulty at some point of development in your socialization process. Growth comes through learning more about your relative worth and seeing clearly where and how you fit in with other people.

Jupiter Semi-Sextile Saturn

Your energy can be dissipated investing time and effort on insignificant detail. This happens because you struggle to prove your value and to get a more accurate picture of your worth to the world. Your vision of your position in the world is very limited. Learn to assert yourself in graded and gradual ways which will not waste your time or energy. Strive to make sure that your manner of assertion doesn't undermine your true aims and desires in life.

Jupiter in Growth aspect to Pluto

It takes a long time for you to get the proper balance between theory and practice, between value and implementation. How you treat other people and their various ideas will be the key to finding positive expression and deeper satisfaction. Any of your "shortcuts" that are perceived as high-handed or manipulative will be your undoing. Trust the innate guiding force, the common sense intelligence in other people to help you build consensus.

Jupiter Semi-sextile Pluto

You have difficulties with regards to use of power and implementation of your ideas. Your natural instincts are to hide your overly assertive nature and you constantly run into trouble having to do with judgments of scale. There is a force within you that seems to backfire every time you try to express it. You are able to get your great insights and feelings working positively in the world when you are truly open to learning from people whose perspectives are greatly different than your own.

E. THE DECLINATIONS

There is another dimension to your astrology chart. This has to do with planets being the same distance from the celestial equator. When both planets are on the same side of this plane there are called parallel. When the planets are the same distance but on opposite sides of the celestial equator they are referred to as being contra-parallel. Both of these aspect activate your ability to organize and reorganize some aspect of your life.

Sun Parallel Mercury

You place great importance on the mental faculty but you may yourself be quite nervous and temperamental. Fixing the worlds' problems starts with fixing your own physical and psychological instability. Once this is completed you are able to offer others a clarity of vision that is quite helpful in sorting out the details of normal cause and effect in your life and in the lives of others.

Sun Parallel Venus

A feeling of love and beauty fill you at some deep level and you are able to translate this into positive expectations about the future. You possess a sweetness and have a knack for creating harmony.

Mercury Parallel Venus

You color your expressions with great cheerfulness and artistic flair. There is a sociableness to your demeanor which give you sparkle. The aesthetic taste you bring to conversation gives you charm, graciousness, and general likeability.

Jupiter Parallel Pluto

You have the ability and opportunity to produce great wealth and abundance in life. You have luck, determination, and the focus to create something of value. Overdoing things and pride are your weaknesses and when overcome your relentless drive produces much of value.

Jupiter Parallel Midheaven

You have luck when it comes to getting a job and you can use this skill to make many beneficial changes in your life. You believe in yourself at some fundamental level and this positive attitude supports you in achieving your goals in life.

Saturn Parallel Uranus

You possess a very strong will and can stay with a point or project long after it has become difficult. There is a creative and original aspect of your personality, which is balanced by the common sense and practical side of your nature.

Pluto Parallel Midheaven

There is a strong psychological twist to the way you deal with other people in the area of career. Some irrational fears of others may prompt you to avoid deeper interactions as these can lead to feelings of emotional vulnerability. You have a dissatisfaction with your position in life that prompts you to focus your energy on career and to keep trying to transform yourself in your professional role.

F. YOUR KARMIC DIRECTION

The Moon's North Node is an all encompassing and instructive point of synthesis in the chart; we could easily start or end our analysis with this one single factor. Because this indicator is so all inclusive it most shows your karmic direction in life. The sign placement of your North node points to your destiny. When your actions, interests, and values are structured by this position, your general sense of personal well being improves. The house placement of the North Node of the Moon indicates or points to an area of life, an arena of experience. By confronting, even augmenting this arena you can inadvertently improve every aspect of your life. By dealing with issues connected to the North Node placement in your chart your general character strengthens and refines.

North Node of the Moon in Virgo

Be as specific as you can be and avoid retreat into escapist fantasies. The more detailed you are in life the faster you learn. The more factual and analytic you are the quicker life moves forward. Real progress is incremental, where you recognize, catalogue, and can replicate, every step of the journey. The more you adopt a procedural and non-emotional approach to your projects the further and faster you move toward achieving your goals. Be practical and patient.

North Node of the Moon in Virgo and in the Twelfth House

"Service to others" is the important banner in this life for you. Plans easily become too complicated, too grandiose, too confusing. You make progress when you are procedural, process-oriented, and disciplined. Set priorities, be simple. You are a blessing to all those you work with and for. Your effect is deepest when you are practical.
