Introduction

Your natal horoscope, or birth chart, is a snapshot of the heavens at the moment you were born. It shows what the sky actually looked like at the time and place of your birth. Astrology in modern times has renewed the ancient discovery that the symbolism of the planets that surrounded you at birth describes your character and personality. Planets that were directly overhead at the time and place of your birth are most important, and would appear at the very top of the chart or the Midheaven. Planets that were just rising above the horizon in the East at the time of your birth would appear near the horizontal line at the left hand side of the chart or the Ascendant. If the Sun appears in the top half of the chart, then you were born during daylight hours and have a more outer directed personality. All of these features reflect the factors at play in the Universe at the moment of your birth and are significant indications of the basic qualities and tendencies that continue to make up your personality.

Each planet's relative position in the sky and significant angles that it makes to the other planets, or aspects, are examined in this report. Please keep in mind that you are not limited by these descriptions. Your natal horoscope does not prescribe your fate. The stars incline, they do not compel. Your birth chart shows potentials that you can either struggle to fulfill or deny. The choice is yours. Beneficial aspects, or planetary positions, are areas of life in which you show natural talent and achieve easy success. Challenging aspects, or planetary positions, can become your greatest asset if you can learn to be aware of how that dynamic plays out in your life and the world at large. The strongest and most important features of your chart are described first. For definitions of astrological terms, please refer to the glossary at the end of this report.

Chart Patterns

Funnel, focal planet Jupiter

You have the planetary pattern type called the 'funnel' shape. All your planets form a group, with the exception of the focal point, one planet or two planets in conjunction. Your energies tend to be channeled through this focus. You will have abilities in the occupied area of the chart, and goals in the direction of the focal point. The focal planet(s) symbolizes how your energies will be expressed, and where you seek to have your needs met or achieve your purpose. Jupiter in the Sixth House (or sign) gives you an optimistic outlook on everyday life, including health issues and the mundane details of the daily workweek. You are one who is capable of enormous output when you get inspired, and approach the practical necessities of daily existence with a quiet joy and a gentle humility. You are an inspiration to your co-workers although you may tend to get caught up in details and miss the big picture approach at times. Health issues are important to you, and you may be a master at putting together preventative medicine practices. In an attempt to find the

perfect fitness regime you may go to the extremes of either abundance or abstinence, and it benefits you to find the middle ground. You are very determined and can turn small advantages into success over time. You take a practical and responsible view of life and excel in the natural religion of the ordinary.

Jupiter in Pisces (or the twelfth house) gives you a quiet and unassuming personality. You are good and kind, very considerate of others, and are friendly and easy-going. You need to feel an emotional resonance in order for your work to be satisfying to you. You have your own personal code of conduct to which you are true, no matter what public opinion may be, or convention may dictate. You are likely to be fond of cinema, or other imaginative flights of fancy. You may suffer in your life from being overly sensitive to the needs of others, or seek to retire from the casual cruelties of the world at large, so that there is some danger of escapism. You tend to work behind the scenes, and do not seek personal glorification from your actions, but are content to do what you do because it is helpful to other people. You often appear more at home in an imaginary universe of your own design than in concrete reality, and benefit when you pay some modicum of attention to the nitty-gritty details of life that surrounds you as well as to the secret world of your dreams.

T-Square, focal planet Saturn

You have a T-Square in your chart. With this planetary aspect pattern, in which three planets or conjunctions are in square with one another, you have a high degree of motivation and drive. Your energies are most easily and habitually expressed by the energy of the focal point, the middle of the T-Square. You may also compensate for overdoing in the area of life represented by the focal point, by leaning toward the empty pattern element opposite the focal point, seeking to balance your activity. The lesson of this planetary aspect pattern is in learning to use your considerable energy wisely in the pursuit of your true goals. There is great tension represented by the focal planet or planets in your chart, where conflicting parts of your personality attain their focus and peak of energy, and you may observe compulsive behavior in the area of life represented here.

Saturn in the Tenth House (or sign) gives an ambitious and clear-minded individual, with a strong sense of responsibility. You are persistent, careful and calculating, and have a deep urge for mastery and achievement. You are likely to place extreme importance on traditional values in reaching for the prize you seek, accomplishment in the eyes of the world. Like the mountain goat ascending you are cautious and rarely take chances, and may appear dutifully grim in your outlook. You may experience difficulties, limitations or delays in the achievement of your goals, but you usually achieve success in the end. You may have encountered problems in your early life with finding your own identity independent of parental figures, and you may now operate out of a subconscious fear that if you don't conquer the world first, then it will conquer you instead. When you are at your best, you can transform your struggle from a personal drive for power in the world into a model for others wherein the social matrix surrounding you is enlightened by your actions.

The following applies to your generation as a whole as well as to you personally:

Saturn in Cancer (or the fourth house) gives a deepening and concentrating, or a blockage in the expression of the feelings. You may seem to be rigid and unemotional, or emotionally unavailable. You can be apt to withdraw from too close emotional involvement. You may have had problems with parental care and guidance in your early years, so that your home and family life is quite important to you, but you may feel the need to escape it. You potentially have a fixation with one or both parents, and a tendency to live in the past, and you need to work through your issues in this area. Security is very important, and may take the form of striving for achievement or material rewards. You may display a tendency to introversion. You may also have strong psychic powers. Your lesson is to more fully and deeply understand and value your true origins, leading to a better sense of security and greater self-acceptance. The personal and intimate world of your feelings must be accepted and integrated, rather than remain locked away behind the barriers of fear and isolation.

Important Features

Venus in Scorpio (19° Sco 53' 31")

Venus in the Second House

Ruler of rising sign

Venus in Scorpio gives a fervent and intense love nature that has the possibility of being obsessive or self-involved at times. This placement may prove difficult for you, because the intense passions of Scorpio can be more than the milder love energy of Venus is ready for. You are sensual and passionate in relationship, and tend to relate to even casual contacts on a deeper and more personal level. For you, there is no such thing as a superficial contact with others. You also may feel a basic relationship insecurity that drives you to be possessive or even jealous at times. You may appear friendly on the surface while acting selfishly at another more hidden level of your personality. You benefit from curbing the obsessive expression of your will. Your challenge is the transformation of your deep and all-consuming passion into a more open and caring relationship energy.

Venus in the Second House represents a deeply felt connection within you between artistic conception and material form. You have a talent for artistic expression that manifests in a practical way, for example with an interest in interior design or gardening, or perhaps in its full-on manifestation in the field of the visual or plastic arts. You may also display a fondness for the material things of life, or for their medium of exchange, money and finance. Material things ultimately mean more to you than what they are worth, and are valued for their intrinsic beauty. You likely have a well-developed sense of what you value and an unerring moral compass. It may be right for someone else, but if it's not right for you, you won't have any part of it. You possess an earthy and practical love nature, very ardent and nurturing. This is a powerful placement for Venus, and your emotions are strong and long-lasting. You will always have an abiding sense of enjoyment from music and the arts.

Pluto in Libra (8° Lib 13' 13")
Pluto in the First House
Angular planet - conjunct Ascendant

Pluto in the First House (or sign) gives you a tremendous drive to transform yourself as you go through life. You have a powerful personality, and a charismatic way about you that others respect. You may actually appear to be timid or unsure of yourself on the surface, but you have the potential to suddenly burst out in anger due to repressed emotions finally exploding. You are also apt to sweep all aspects of your former life before you in a sudden change that it seems simply must come. You may feel insecure or afraid or perhaps jealous of others at times, and may compensate by being extremely forceful. You can also be compulsive, even obsessive, in achieving your will. You have the power to really get things done, and this power can be used either to bolster your own ego or else for the good of all concerned. Your challenge is movement away from feelings of insecurity and resulting separateness and loneliness, toward an acceptance of your own and other's needs and opinions in order to generate a new and better sense of self. In your most positive manifestation, you possess a dedication to higher ideals and a willingness to be a channel for healing yourself and society.

The following applies to your generation as a whole as well as to you personally:
Pluto in Libra (or the seventh house) gives you a focus on forming close emotional attachments. You may have difficulties in marriage and partnerships; but there are also great rewards to be gained in this area. You may feel a compulsion to be liked by others. Conversely, you can also become involved in power struggles with partners. You have a depth of passion within you that isn't obvious or recognized, and you may seek to project this power drive onto a relationship partner, rather than directly own up to it. You may therefore find yourself in relationship with dark or manipulative personality types, who may exhibit openly the tendencies you have yourself at a more hidden level. You are likely to go through many changes in your relationship dynamic, as you come to understand more fully your inner process. You may exhibit strong attractions toward close involvement with another person, and simultaneously have fears regarding such attachments. Time and moving through the fires of difficulties may lead you to a painful re-examination of your goals in these areas. Wisdom is required in the handling of close relationships in order to transform the partnership energy into a growing and conscious act of sharing, and to find your own inner strength independent of others around you.

Mars in Scorpio (9° Sco 35' 35")
Mars in the Second House

Mars in the Second House (or sign) gives a persistent and patient nature. You can be extremely stubborn. You can also be jealous and possessive. You value money and other forms of security. You possess an enthusiasm for the pursuit of sensual pleasures. You are likely to be an ardent and loyal lover. You enjoy the good things of life. You may find that you have a desire for luxuries, but lack the conservative attitude toward finances that would help to secure them. If Mars is afflicted in your chart by planetary aspect, you may

need to work through pride and acquisitiveness in your nature, or there could be problems with possessiveness, or even resentments towards others. You have an artistic flair to your nature, and function well in the realm of the material and tangible world, with the stamina required to get what you want out of life. You benefit from cultivating an attitude of sharing.

Mars in Scorpio (or the eighth house) gives a passionate and intense personality, proud, strongwilled and stubborn. Your sexual nature is very important to you. You feel the instinctive level of your being powerfully, and you are quite sure of yourself. You have a noticeable presence and a strong influence on those around you, and like to get your own way. You also enjoy giving the gift of your affection, and partnership sharing is an important mode of activity for you. Your urge for personal security is strong. If Mars is afflicted by planetary aspect, you are likely to be quarrelsome and self-indulgent. When you begin to engage with the higher levels of your consciousness, you have the capacity to be a great healer. In any case, you benefit when you cultivate selfdiscipline, and strive for objective over selfish motivations.

Sun in Scorpio (18° Sco 39' 45")

Sun in the Second House

The Sun represents your will and purpose, your sense of vitality, and your evolving higher Self. In Scorpio it is Fixed-Water, and rules the sexual organs. Your ruling planets are Mars and Pluto. Scorpio is the most intense sign of the Zodiac, and is associated with sexual activity and with the symbolism of death and rebirth. Your emotions run deep. You have great personal magnetism and great powers of persuasion or even the ability to coerce others. Your will is strong, and you let nothing stand in your way to achieving your goals. You may suffer in your life, but your pain leads to important personal transformation. You are very good at group dynamics, and working with the public. You are a shrewd judge of other people's motives, and you may be willing to use your special knowledge to your own advantage. Although you can be manipulative at times, when you work out your issues to be more in line with your own higher nature, you can take on the charismatic power of a natural healer, transforming yourself and society around you. The Sun in the Second House represents a concentration of the vital force to obtain sustenance and possess resources. Resources are security for you. You have a strong urge to identify those resources that create safety and comfort for yourself and those closest to you, and a strong sense of what you truly value. Your formidable will power attracts much of what you desire to you. Once you possess something it takes on a special significance for you. You tend to hold onto and value what you have, whether for aesthetic pleasure or monetary wealth. You also love beauty and symbols of beauty. You may perhaps seek to develop personal resources in order to discover your own sense of self-worth. You also may attract influential friends. It is important that you learn how to share your sense of values and valuables with others. You can serve as an example in choosing to demonstrate how to be resourceful and appreciative of what you have and others share with you.

Chiron in Aries (21° Ari 02' 20"R)
Chiron in the Seventh House

Chiron in the Seventh House (or sign) represents issues with one's vital force to relate with others intimately. With this placement, you have both a tremendous desire to connect with other people, as well as frustrations that have arisen in this area. Your attempts to connect may have been frustrated through experiences of early childhood, when you wanted contact with others but were rejected or somehow prevented from establishing meaningful relationships with them. As a consequence you have been focused on establishing such a connection ever since. It becomes extremely important to establish a connection with another person, yet this contact, so desired and even longed for, can also be extremely painful. Any partial rejection can be seen as a revisiting of your earlier pain surrounding issues of relationship to other people. As time goes on, there may even be some element of self-sabotage involved in your relationship experience. You may also become compulsively attached to the idea of close personal involvement, seeing yourself as more of a part of a desired union than as an isolated ego, "on your own". Yet your very wholeness does also depend on being able to stand independently, so that there is an element of dysfunction in the way you deal with interpersonal relationships. Your path to healing these issues may be to become more fully conscious of the earlier wounding that you have experienced, enabling you to finally move through that pain toward a less fear-based way of relating, without the self-undoing or the extreme sensitivity that may have been unconsciously present. You may also find that you are able to take the conscious knowledge you have gained through this process further by helping other people deal with these same issues, either through work in the helping professions, or just with friends and loved ones in the course of your daily life. As you grow more sure of yourself, this area of interpersonal relationships, while still very important to you, can become a great source of strength for yourself and for others as well.

The following applies to your generation as a whole as well as to you personally: Chiron in Aries (or the First House) represents issues with one's vital force to be, to act, to initiate. With this placement of Chiron, your very sense of who you are may be threatened by disturbing realizations and painful memories. You may have felt belittled and put down in your formative years, rather than encouraged, by the significant adult figures in your life. Even after reaching maturity, you may encounter obstacles that prevent you from reaching your full potential. These difficulties can set up a pattern for failure, in which you operate more from a fear of failing than the expectation of success that breeds confidence for further achievement. One way this may manifest is in terms of acting not in your own behalf, in furthering your own goals, but rather in behalf of the goals of other people, which seem somehow more important or at least get priority treatment. You may keenly feel a lack of achievement in your own life, and compensate by trying too hard to help these others, putting yourself in the background, as it were. As long as these patterns operate more or less unconsciously, they are difficult to overcome, so the first step in surmounting them is to become more conscious of your own pain; acknowledging and discovering more about what exactly went on in the past to make you feel frustrated with your own abilities. At that point you begin to come out from behind your painful experiences and really show yourself. With a more conscious understanding

of your own dynamics you can also begin to truly be of help to others, in how they deal with similar issues, as you start to approach them not from a false sense of vicarious achievement, but from a place of true friendship and helpfulness.

Moon in Libra (15° Lib 44' 10")

Moon in the First House

The Moon in Libra gives a gentle and refined personality. You constantly strive for balance between opposing points of view. You like to please everybody, and should beware of a tendency to be all things to all people. You are the soul of courtesy, and are gracefully elegant in manner, which may also prevent your genuine emotional reaction from getting across. You truly enjoy the company of other people, and may be uncomfortable with too much solitude. You possess an elusive sweetness of nature you should strive to be true to.

The Moon in the First House represents the emotional, sensitive, experience of self-image projected onto the world. Your identity in the world depends on your environment and you will reflect the environment around you in an emotional or sensitive way. You are likely to possess a strong imagination. You may be moody. You are comfortable when you are in action. You may feel a need to be recognized and may feel resentful if others around you do not perceive your efforts. You are flexible and concerned about interacting with your environment in a refined, considerate, and observant manner. You may need to recognize that others are not as sensitive as you are and may not always be capable of appreciating your receptive and intuitive qualities.

Neptune in Sagittarius (8° Sag 34' 45")

Neptune in the Third House

Neptune in the Third House (or sign) gives a clever personality with subtle charm. You are witty and poetic. You are fond of higher education, but you tend to be a dreamer and may miss out on serious study because of it. You see the world through the mystical third eye, rather than the usual binocular setup that allows most people to get along. Because of your extraordinary visionary viewpoint you may see more than others and also miss out on some of the mundane details. You may suffer some confusion regarding communication received, or perhaps where close relatives are concerned, or have feelings of insecurity stemming from your early years, that carries over into adult life. You can be indecisive and worrisome but you are also broad-minded and mentally creative. It benefits you to learn to focus your considerable creative potential, and to let yourself become a channel for higher forms of thought to flow into your own life, and through you into the world around you.

The following applies to your generation as a whole as well as to you personally:
Neptune in Sagittarius (or the ninth house) gives an impressionable, idealistic and very intuitive personality. You are inclined to the mystical, and are high-minded, seeing life in terms of visionary and poetic feelings rather than in practical terms. You are capable of great belief in the unknown and unproven. You are inclined to scholarly pursuits, but may

feel a lack of motivation or vagueness with respect to educational goals. You also have a strong desire to explore and travel, to try novel ideas and experiment with new ways of doing things. You may be attracted to spiritual studies, or psychedelics, as a way to achieve a transcendent state of mystical union with all creation. Your challenge lies in relying on your considerable inner vision to unfold your own unique pathway, to make concrete and real your flights of consciousness to other realms, and bring this vision back with you into society at large.

Angular Planets

Sun, Moon, Rising Sign Features

Libra Rising

The Rising Sign is the mask shown to others, also the physical appearance. People with Libra Rising are gracious, attractive and fair-minded. You are a seeker of harmony and beauty. Your ruling planet is Venus, and you are known for your good taste, elegance and charm. Libra is the sign of balance and relationship. The sun in Libra is at the equinox, when day equals night, and similarly Libra strives for harmony between polarizations. Your natural mode of living is in partnership with others. Intimate relationships are quite important to you, as are issues of social justice. You forever hope that all parties to a conflict will be satisfied, and you have a tendency to understand and support both sides of a dispute, which is likely to drive your friends crazy. You will also go out of your way to avoid a quarrel, and you may have a hard time making a decision. An excellent outlet for your love of beauty is in artistic pursuits of all kinds. You benefit from strengthening your will to act in favor of your higher purpose, which lies ultimately in dedicating yourself to humanity.

Sun in semi-square (within 0.6 degrees) with Ascendant

The planetary energies conflict in determined subtle tension; calmness is required. This aspect between the Sun and Ascendant gives a strong-willed and generous personality. You are dramatic and assertive, also creative, self-confident and more than a bit self-indulgent. Like Leo rising people you expect to be the center of attention, and often are. You also have great energy, courage and honesty and are very proud. Your challenge is to become more aware of yourself; to refrain from arrogance and egotism, and rather to develop humility and compassion, and to learn detachment in the gift of your affections.

Jupiter in inconjunct

(within 5.0 degrees) with Ascendant
Focal planet of planetary pattern

The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed.

This aspect gives an optimistic and high spirited individual. You are likely to be fortunate in your material surroundings. You are convivial and lively, and generous with your money and your affections. You can sometimes be extravagant or suffer from errors in judgment. You may have a tendency to overdo things, or for being overly optimistic, but in general you have good executive abilities. You have generally simple tastes, but your enthusiasm for life may give your waistline a tendency to expand. You are attracted to higher learning and the fine arts, and you are a courageous and loyal friend.

Pluto in weak conjunction
(within 5.1 degrees) with Ascendant

The strongest blend of the energies represented by these two planets.

This conjunction gives a willful personality with a focus on being recognized and admired. You like to get your way. You have strong desires, and are single-minded about pursuing them. You have a powerful urge toward self-transformation, and may go through many changes in your life. In relationships, you tend to become intensely involved quickly, and stay absorbed in the relationship as long as it lasts. You are not shy about expressing your beliefs, and may feel a compulsion toward self-assertion and self-aggrandizement. You tend to overpower any situation, perhaps owing to underlying feelings of insecurity leading to rather self-centered and ego-oriented behavior. This behavior can change, however, for you have tremendous powers of regeneration and rebirth. You tend to champion the underdog, and react strongly to social injustice. When you learn to train your considerable energy on socially oriented rather than purely personal goals, you can become a focal point for the transformation of society.

Sun in strong conjunction
(within 1.2 degrees) with Venus
Ruler of rising sign

The strongest blend of the energies represented by these two planets.

This conjunction gives a warm-hearted and affectionate personality. You are cheerful, charming and likable. You are also very beautiful, particularly at the soul-level. You are sensitive, with an inclination for artistic pursuits and refined surroundings. You may be somewhat unworldly in your attitude. You also may possess considerable talent for the arts, especially music and dance. Relationships are important to you.

Sun in strong trine
(within 0.1 degrees) with Saturn

Leading planet of planetary pattern

The planetary energies flow smoothly; the connection is easy and beneficial. This aspect gives a deepening and concentration of your self-expression. You can be strong-willed and determined, and can appear selfish, or cautious and reserved. You have a strong desire for recognition. In later years you will probably acquire a firm basis for respect in terms of accomplishments over a lifetime of careful and industrious effort. The lesson for you is to deepen and broaden the knowledge of who you really are at the level of your innermost soul, and to really learn to love the person that you find in this process.

Sun in inconjunct (within 2.4 degrees) with Chiron

The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed. With this aspect between Sun and Chiron there are indications that you may experience painful realizations throughout your own life and that you also have the ability to heal others as well. Chiron is called "the wounded healer" because it represents the archetype of imperfection and loss which when integrated leads to compassion and understanding of others' suffering. The empathy and the understanding that are gained through life's trials provide the ability to serve as a helper and a healer for others. Since you have come through the fires of difficulty you are likely to be someone with career possibilities in the helping professions. It is often easier to face others' troubles than one's own, and you may even be more ready and available to help others than to help yourself. It is good to integrate your past experiences, no matter how painful they may have been, and no matter how painful these feelings continue to be for you in adult life. Then you will be in a position to truly sympathize with others' suffering and help them to work out their traumas as well.

Sun in sesquiquadrate (within 0.3 degrees) with Midheaven

The planetary energies conflict in determined subtle tension; control is required. This aspect gives a strong personality, very involved in work and career. You can be autocratic and may appear selfish, or bent on getting your own way. You have tremendous drive, and will likely go far, but you might need to beware of too much ego-involvement in being on top.

Moon in strong square (within 3.1 degrees) with Saturn Leading planet of planetary pattern

The planetary energies conflict; internal and creative tensions bring rich rewards through

effort over time.

You may appear to be rigid, rather letting your emotions flow freely. This aspect gives a deepening and concentrating, or a blockage in the expression of your feelings. You may be extremely sensitive. You may have had problems with the parental care and guidance you received as a child, or you may be fixated on one parent, especially your mother. There may be a sense of over-identification with mother, or possibly an unconscious rejection of her influence. You may have experienced her as rejecting or uncaring -- and this attitude may spill over to the significant women in your life. You may experience difficulties in your relationship to the feminine. In a woman's chart there could be a need to more fully identify with and bring into focus a concept of your own femininity. In a man's chart you may be in relationship to powerful feminine figures, symbolic of the powerful feelings that are denied full expression in your own nature. The lesson for you here is to more fully and deeply understand and value the true roots of your being, leading to a better sense of security and greater self-acceptance.

Moon in opposition
(within 5.3 degrees) with Chiron

The planetary energies are polarized; outer events stimulate their interaction; integration is the challenge.

With this aspect there are difficulties indicated in relating to the feminine - either significant female presences in your life or else and including your own feminine side. This would be true, and different in its sense, in either a man's or a woman's chart. Of course the important early model for the feminine is mother, and it is likely that there were painful experiences of some kind in your early relationship with your own mother or significant female parental figure. Perhaps you had a close relationship, but yet your needs were somehow not met, resulting in unconscious resentments which only surfaced later in your adult life. You may in this case exhibit a strong feminine side through and over-attachment to your mother's feelings. It is important to note that there also may have been actual abuse, physical or otherwise. These experiences are so painful that they are often suppressed from your consciousness, and buried deep in your psyche. In your adult life, it is important to move past the resentment caused by early wounding into a more conscious and compassionate reconciliation with the walled off parts of your own nature. Therefore, deep psychological work of some variety is strongly indicated. Once you have begun to make conscious the pain and alienation surrounding events from the long-buried past, you can begin to truly help others as well as yourself. A creative side of your nature may emerge for the first time. The integration of the feminine side of your nature is a tremendous challenge for you, but the gold at the end of the process is well worth digging for.

Venus in strong trine
(within 1.1 degrees) with Saturn

The planetary energies flow smoothly; the connection is easy and beneficial.

This aspect gives a personality with a deepening and concentration in the area of interpersonal relationships. You are sensitive and have a strong sense of duty. You are likely to be loyal, cautious and reserved. You do not involve yourself quickly in relations with others, having a judicious sense of the proper timing of such activities. You also make an excellent businessperson, as you are possessed of good judgment diplomacy and tact, and are outer directed and self-reliant. You may feel a sense of isolation and loneliness in your life, or a tendency to substitute material rewards for love and caring. You could also have fears of rejection concerning romantic contacts. Yet you have also the opportunity to rise above these circumstances in concentrated effort over time. By being open to the path of relationship you can move toward inner integration and balance, toward relationship more fully explored and felt, based on a renewed self-confidence born of actual experience and mutual understanding.

Venus in inconjunct
(within 1.1 degrees) with Chiron

The planetary energies do not flow smoothly, one or the other predominates; discrimination must be employed.

This combination gives a personality that experiences difficulties with relationships. You are likely to have had painful experiences surrounding marriage and intimate partnerships, but there are also great rewards to be gained in this area. You are drawn to relationship at the same time that you fear it, so that you may also have a strong focus on forming close emotional attachments. You may have had early childhood experiences that made it hard to accept the love of others in your adult life. With these distractions, you also may strongly desire to help other people, and yet be unable to give them the full benefit of your higher self. It is good to make the effort to connect yourself consciously with any painful events that may be buried in your unconscious, so that these will no longer have so much power over you. Once you have begun to integrate these painful feelings consciously, and shed the baggage of earlier frustrations, you can be a more fully participating partner to others, and be more of help to them as well.

Other Natal Planets

Mercury in Libra (29° Lib 45' 24")
Mercury in the First House

Mercury in Libra gives a positive mental attitude, with terrific judgment and sensitivity. You are a diplomatic speaker, and usually very aware of the effect your words have on others. You express your ideas with balance and fairness. Your capacity to see all sides of a situation can make it difficult for you to come to a decision. You have a highly developed sense of aesthetics. You can also be something of a perfectionist. You want

your surroundings to be aesthetically pleasing, and therefore your living space must be neat and tidy. It benefits you to let go of being too fussy, and to stay true to yourself when you need to make decisions.

Mercury in the First House represents a strong mental connection between your inner awareness and the outer world. You bring an acute and intuitive perception to bear on all that you encounter, and almost nothing escapes your attention. You may be extremely sensitive to visual or auditory sense impressions. You are also likely to be very curious about things you encounter. You are constantly asking questions to satisfy your restless quest for more and more information. You are in fact a perfect channel for ideas and information, as you have a natural ability to communicate your ideas to others. It is important for you to realize that you are not merely a passive observer. As you ask questions about the world, you learn about yourself; and as your attitudes change inside, your perceptions of the world will also change.

Uranus in Libra (29° Lib 24' 51")

Uranus in the First House

Uranus in the First House (or sign) gives an individual with an original and eccentric mind, whose intuition is strong. Change and variety excite you. You are a nonconformist, and totally have your own code of ethics. You are constantly asserting your freedom and independence, which is the very breath of life for you. The Uranian energy can be impulsive, as well as insensitive to others' needs, and you can appear to be cold at times, or you may seem to be more excited by ideas than by other people. You may feel unrest and isolation, as though on a separate wavelength from the rest of mankind. Your mutability and urge for constant change can frustrate or confuse those around you. You may also feel uneasy in your sense of self, as you attempt to come to terms with this basic instability. You benefit from learning practices that help balance your energy, and in developing understanding and acceptance that not everyone is as impulsive as you are. You are in your essence a free spirit, courageous and pioneering, whose mission in life is involved with bringing new ideas into being.

The following applies to your generation as a whole as well as to you personally:

Uranus in Libra (or the seventh house) gives an individual who is independent and original in the expression of artistic impulses and relationships. You are a lover of harmony and beauty, and you express this love in your own unique manner. You do not subscribe to a conventional sense of the aesthetic, but are always breaking new ground. You are idealistic and philosophical, and you have a restless interest in new forms of stimulation. There can be problems with marriage in that partners may find you alternately affectionate and uninterested. You are likely to seek a rather unconventional relationship, which allows room for growth on both sides. You need more space in relationship than most, and search for a partner who understands that, and has his or her own unique life perspective. You may also bring new concepts to the area of partnership. Part of your purpose in this life may be the transformation of the partnership energy into a new mode of being that can serve your own interest as well as enliven and invigorate your partner.

N Node in Sagittarius (10° Sag 22' 01"R)
N Node in the Third House

Lunar North Node in the Third House (or sign). South Node in the ninth house or sign. With this placement you have unusually clear and direct communication skills. You are interested in the practical application of knowledge, in helping to bring people together, rather than information simply for the sake of it. In the past, or in past lifetimes, you likely got far into solitary philosophical concerns. Perhaps religious values were quite important to you. Now your focus is on a more mundane or worldly view, where higher knowledge counts, but only in so far as it is useful in the analysis of day-to-day events and in order to spread the word to others. Although you may be tempted at times to drift off into deeper reflections, your real goal is to be in touch with people, and your mental abilities serve your purpose well.

Lunar North Node in Sagittarius (or the ninth house). South Node in the third house or sign. This placement gives a thoughtful personality, with a focus on understanding moral or ethical belief systems. You may tend to scatter your energies, especially when young. In the past, or in past lifetimes, you concentrated your attention on superficial relationships of the everyday world. Now in this lifetime, your purpose seems to be to lift your attention toward a synthesis of higher consciousness. You will find great joy in pursuing the broader picture, whether in terms of educational perspectives or perhaps participation in cultures other than your own. Although curiosity regarding details and enjoyment of a multiplicity of points of view comes naturally to you, you must now learn to see the forest instead of the trees. Your focus now will become more and more the pursuit of higher knowledge and a deeper understanding of the motivations of others that was meant by the phrase "to understand all is to forgive all." A true philosophy of compassion is your goal.

Saturn in square
(within 2.2 degrees) with Chiron

The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time. With this aspect, you can be rigid or stuck in situations; unbending. You have an attachment and also great difficulty with authority; for example you may endlessly achieve positions of authority and then have second thoughts about it. You likely suffered through potentially painful experiences as a child, when you were forced to submit to an arbitrary authority or limitation of some kind. Perhaps you had the experience of a bad father. The relationship with your father was damaged in some way; perhaps it was a relationship you had to get away from, either from his overbearing nature or from his neediness and lack of presence. In other words, your father figure was either too strict, or not present and therefore not strict enough. With this aspect, you need to make your own form of personal authority, independent from the parental influences or

that of society. This gives you the potential for great strength and leadership, if you can integrate your powerful and perhaps repressed emotions regarding your concept of authority. In this way you can lead others into the New Age. You may be one to re-work the structure of society itself in some way, or to become an advisor or even a leader in the social sphere; perhaps in connection with organizations devoted to new age healing techniques. You may also feel the need to redeem yourself or your family; to restructure the constructs that you have internalized from your heritage, perhaps even your entire relationship with the physical realm.

Chiron in quintile
(within 0.4 degrees) with Midheaven

The planetary energies are positively linked, subtle, and spiritual in dimension. With this aspect of Chiron and your Midheaven, you likely have issues around exerting personal will versus knuckling under to authority. You have enormous energy and endurance at your disposal, although you may appear timid or unsure of yourself, since your power urge is likely to be repressed. It may be that you have had many painful experiences with authority. As a result of these experiences, you may fear the expression of your own personal power, and alternate between complying with the standards of society around you, or rebelling against them. You may avoid situations where a direct confrontation seems to be brewing. You also may feel more empowered in helping others than in getting your own act together, and this aspect can be the sign of someone with a career in the helping professions, perhaps involved with new age healing. It is often the case that the powerful emotions associated with this aspect hover below the level of conscious awareness in your psyche. As you become more aware of these patterns, you will less and less need to act them out either suppressed with passivity, or with bluster. Another manifestation of this aspect, perhaps paradoxically, is the ability to lead and be willful, to not take "no for an answer", to be ruthless in accomplishing one's aims. A better level of integration produces a newly self-assured personality whereby you do not depend on others either to fully express your own desires, nor to be swayed by theirs. When you have integrated the walled-off places in your psyche that inhibit action on the part of your whole entire self, you are available to yourself in situations of leadership, as

well as in truly helping other people.

You are likely to be very sensitive and emotionally intense, with a tendency to become completely absorbed in interpersonal relationships. Your need for security may manifest as an almost compulsive desire for a safe and secure home life, or a home environment which can be completely controlled, possibly through dictatorial behavior. You have an unusually clear insight into the emotional depths of other people, which may border on an actual psychic attunement with their states of being. You also have the urge to break through the limitations of the parental influence you experienced as a child. You may have experienced controlling behavior on the part of one or both parents, especially your mother, and you may find yourself still involved in the battle for your own autonomy many years later. These struggles can be worked through in your life, beginning with a deeper understanding of what it is you truly need on an emotional level. Your challenge is to transform your sense of insecurity, by coming to terms with your survival issues based on a better insight into your own hidden motivations.

This combination gives a charming personality with an idealistic and deceptive nature. You may have a musical career or achieve much in the helping professions, although you will have to work at it. You are susceptible to suggestion, and you tend to give more than you receive in your employment. You may have a tendency to avoid responsibility. There may have been difficulties or confusion in your early years, especially with regard to the parental care you received at the time, and this issue can spill over into your adult life, when you may confuse others around you by your own lack of clarity. In vocation, you must learn to spell out your goals. You will not be content with most ordinary jobs, until you seek out some part of it that represents a real calling for you. At your best you express the societal ideals of brother- and sisterhood and find a spiritual joy in your work.

Pluto in weak square
(within 4.8 degrees) with Midheaven

The planetary energies conflict; internal and creative tensions bring rich rewards through effort over time.

This combination gives a forceful personality with a strong and difficult focus on issues of authority, power and control. There may in fact be a compulsion for control manifesting in problems with interpersonal relations or in rebellious attitudes toward established authority, or perhaps in the charismatic personal magnetism of the born leader. You tend to seek to be in a position of authority. There are however likely to be problems inherent in maintaining a position of authority, once achieved. What is needed is a reevaluation and transformation of the urge for power and control, based on a deeper understanding of personal power and a more conscious and socially responsible use of it.
